

SATURDAY, THE 25TH OF SEPTEMBER

Derby

by Maximilian Thomin

On Saturday morning the group from Dreieichschule visited Derby.

We viewed the *Derby Cathedral*, which is big and very impressive because of its golden fences and its big organ. Four priests and four lay people are managing the cathedral and the ministries.

After we had left the cathedral we went through Derby *market hall*

The market hall is a big hall with lots of shops in it. You can buy everything from fruits via meat, sweets and furniture to computer games. Some of these shops have got even older things.

About Derby:

Derby is central in England and is located in Derbyshire. It has got wonderful streets with little markets, where you can buy food, souvenirs or whatever you like. The old houses look really impressive, so it is very nice to take a walk alongside them.

On Saturday afternoon and evening we stayed with our host families.

After we had got back to Trent I met my exchange partner and we went home. We played some computer games at home until we left for bowling.
