

SUNDAY, THE 26TH OF SEPTEMBER

Alton Towers

by Fiona Callies

On Sunday I woke up at 7:30 am, by the alarm from my phone. I was slightly tired but I was looking forward to the day ahead. As I went downstairs I smelled the crumpit cooking; it made me very hungry. I was welcomed good morning by Nina, Annie's mum, and started to eat my crumpit (a crumpit is an English type of bread which you eat for breakfast).

Now it was time to go to school to catch the bus to Alton Towers. When arrived at school it took a long time to get on the bus, because the teachers had to check that everyone was there. The journey to Alton Towers took a long time round about 1 hour, but eventually we arrived and we were happy about it.

While we were there we went on a lot of rides like: Air, Submission, Enterprise, the Flume and the spook house. My favourite was Air and I found that the worst one was Submission because it went upside down and I was scared to fall out of the car. I enjoyed the rides very much.

After five hours in the park it was time to go home, so we headed back to the buses to drive back to school. On the way back it didn't feel as if it took so long, but maybe that was because I was tired and I wasn't excited to go home.

When we arrived back at school, Nina was waiting for us in the car to take us home. When we came home the dinner was waiting and I wasn't freezing anymore because it was very warm in the house. After the great trip and the delicious dinner I was tired so I went to bed. It was an amazing day.
